

**Simplified Book-Buying Process Available at  
The**

**Riverside Community College District**

*Ordering the right books for courses just got a whole lot easier with  
Registration Integration!*

The Riverside Comm College district offers a free service that allows students to order their textbooks at the same time they register for classes. This innovative program links the school's course registration website to the bookstore's website, eliminating the need to search for books on a course-by-course basis and streamlining the book-buying process.

This easy-to-use option is the result of a collaborative effort between administration officials and Barnes & Noble College, which manages the campus bookstore. Called *Registration Integration*, this program has been successfully implemented at hundreds of schools across the country.

"We are very pleased to offer students this wonderful time-saving option," said Stacy Weidner, general manager of the Riverside district bookstores. "Registration Integration not only combines the course registration and book ordering into one easy process, it saves students money by giving them earlier access to our supply of lower-cost used textbooks." In addition to new or used books, students can also request rental or digital textbooks – if available – using this system.

Here's how it works....After a student registers for classes online, he/she can click on the textbooks link to view the list of textbooks they'll need for next term's courses. Students can then select the books they want, the format they prefer (rental, digital, used, or new), if they want to pick them up at the bookstore or have them shipped to another location, and their preferred method(s) of payment. Book orders are ready for pick up or delivery approximately two weeks before classes begin. There is no charge for using this service, but delivery fees apply for those students who chose to have their books delivered.

For more information about using this service, please contact Stacy Weidner at the Riverside Bookstore at 951-222-8152.
