ASSOCIATE DEGREES FOR TRANSFER (ADT)

California community colleges are now offering Associate Degrees for Transfer (ADT) to California State University (CSU) institutions. ADT degrees are designed to provide a clear pathway to a major and baccalaureate degree from a CSU. California community college students who are awarded an A.A.-T. or A.S.-T. degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an A.A.-T. or A.S.-T. degree are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units. To view the most current list of Moreno Valley College Associate Degrees for Transfer and to discover which CSU campuses accept each degree, go to: http://adegreewithaguarantee.com.

Students are encouraged to meet with a Moreno Valley College counselor to review their options for transfer and to develop a Student Educational Plan (SEP) that best meets their goals.

ANTHROPOLOGY (CSUGE) MAA616 (IGETC) MAA618

The Associate in Arts in Anthropology for Transfer Degree is designed to prepare students for transfer to institutions of higher education and specifically intended to satisfy the lower division requirements for the baccalaureate degree in anthropology at a CSU. Students are afforded the opportunity to study the nature of human diversity from a genetic, archaeological, linguistic and cultural basis. The breadth of anthropology will be examined to include the historical and contemporary theory and research as the basis from which to gain an in-depth awareness and understanding of humans and the world in which we live.

Program Learning Outcomes

Upon successful completion of this program, students should be able to:

- Apply the holistic and comparative perspective inherent in anthropological knowledge to real world problems.
- Use information resources and technology to research current issues in all four subfields of anthropology.
- Synthesize and integrate theoretical perspectives specific to anthropology and general to the social and natural sciences.
