ABOUT ACES STUDENT SUPPORT SERVICES

The mission of the Academic Counseling and Educational Support (ACES) Program at Moreno Valley College is to promote the retention, graduation, and transfer of low income, first generation and students from with disabilities through a variety of academic support services. ACES offers comprehensive services, including individualized academic counseling, tutoring, mentoring, career and leadership skill development, college and cultural field experiences, and other services to empower students to graduate from Moreno Valley College and transfer to a four year college/university.

Moreno Valley College's ACES program is under the umbrella of the federal TRIO Student Support Services Program, which is funded through the US Department of Education. TRIO programs have been in existence since 1964 and have a long standing history of empowering income qualifying, first generation students to pursue their dreams, be successful, and graduate from college.

ACES offers qualifying students a strong academic support system and learning community that will assist them in maximizing their success in college. The primary goal of the program is to increase the retention and graduation rates of students who are committed to transferring to a four-year institution by increasing their access and opportunity to higher education.

ACES serves 144 students from Moreno Valley College annually. In addition to the unique services offered to ACES scholars, ACES Scholars are eligible for priority registration.

Some famous TRIO Student Support Services alumni are:

- A.C. Green, Former Professional Basketball Player
- Viola Davis, Emmy Award Winning and Academy Award Nominated Actress
- Dr. Franklin Chang-Diaz, First Hispanic Astronaut
