RE: Moreno Valley College, Moreno Valley, California
Dental Hygiene Program
Status: Approval without Reporting Requirements

Dear Dr. Steinback,

At its August 1, 2019 meeting, the Commission on Dental Accreditation (CODA) granted the dental hygiene program the accreditation status of “approval without reporting requirements.” The definitions of accreditation classifications are linked below. Below is a summary of actions and additional information.

Dental Hygiene Site Visit

The Commission considered the site visit report on the dental hygiene program. On the basis of this review, the Commission adopted a resolution to grant the program the accreditation status of “approval without reporting requirements.”

No additional information is requested from the program at this time. The next site visit for the program is scheduled for **2026**.

Dental Hygiene Program Change

The Commission considered the April 2019 report describing a proposed program change for the dental hygiene program. The Commission noted that the report describes a change related to the course DEH-34 Community Dental Education #1 with modifications to the name only and minor objectives changes to meet the Dental Hygiene Board of California regulation requirement for cultural diversity.

Following careful review of the information provided, the Commission adopted a resolution to approve the report of program change and continue the program’s accreditation status of “approval without reporting requirements.” No additional information related to the change is requested from the program at this time. This change will be reviewed at the time of the next site visit for the program scheduled for **2026**.
