

Measure A: Affordable, Quality Higher Education, Job Creation, and Classroom Repair Measure

Moreno Valley College, Norco College and Riverside City College are vital community and economic resources that provide a high-quality, affordable education and job preparation in fields like healthcare, law enforcement, technology and engineering to local students. Upgrades to classrooms, labs and career training facilities are needed to expand access and meet the demand for decades to come. Investing in our local community colleges would help create local jobs and provide a skilled workforce for the future.

The Riverside Community College District Board of Trustees placed Measure A, a \$715 million local bond measure, on the March 2020 ballot to:

- Maintain classrooms and labs by replacing leaky roofs, rusty plumbing and outdated and faulty electrical systems
- Improve access for students with disabilities
- Upgrade outdated classrooms, science labs and career training facilities to keep pace with current industry standards and allow for state-of-the-art courses
- Expand and improve Veterans' Centers at all campuses
- Improve student safety and campus security systems
- Measure A would cost property owners approximately 2¢ per \$100 of assessed value per year, while bonds are outstanding
- All funds from Measure A would be required to stay local. A specific project list, citizens' oversight and independent audits would be required.

FAST FACTS

\$1 BILLION

Our colleges added nearly \$1 billion to the local economy last year

13,000 JOBS

Our colleges supported nearly 13,000 jobs last year

60,000 STUDENTS

RCCD provides high-quality, affordable education to more than 60,000 students
